

COLD

STORAGE SALES, LLC

"Experienced Refrigeration Solutions"

Heatcraft is a renowned manufacturer of refrigeration units for five family brands, all of which are industry leaders: Larkin, Bohn, Chandler, Climate Control, and InterLink. Their commercial products are carefully constructed and designed to control the climate conditions in different facilities, such as warehouses, data centers, and restaurants. Whether you're looking for air-cooled condensing units, evaporators, walk-in unit coolers, refrigerated warehouse unit coolers, fluid coolers, Interlink parts monitoring systems or chillers, Heatcraft will have what you need.

Amerikooler has been leading the cam-lock panel industry for over 35 years, providing the most reliable walk-ins for both food service and retail businesses. With their known quality construction, efficient insulation, quick-ship lead times, and the longest running warranties in the industry, there is no doubt, Amerikooler is the name customers trust.

Flexible Polyurethane Foam, Rigid Polyurethane Foam, Build-to-Print Composite Parts, Flammability Testing Services, Physical Property Testing Services-, Developmental Testing Services-, and Composite Core

From walk-in coolers to industrial warehouse applications, Eco-Cold low temp doors combine the latest tech, premium materials and design features to meet the demanding requirements of the cold storage industry.

FOAMULAR® LT30 and LT40 extruded polystyrene (XPS) insulation is suitable for cold storage floors. Durable FOAMULAR® XPS performs well under cold storage concrete floor slabs. FOAMULAR® XPS insulation's resistance to water absorption and water vapor transmission allows it to maintain low thermal conductivity in the presence of the severe water vapor characteristics of cold storage applications.

Cold Storage Sales, LLC., is a manufacturers' rep, representing high-quality, industry-leading, commercial and industrial refrigeration products, to wholesalers, contractors & the OEM markets.

AEROFLEX®

Aeroflex manufactures the Aerocel brand of high-performance flexible EPDM closed-cell elastomeric mechanical insulation for building mechanical systems such as HVAC piping, VRF, refrigeration, chilled water, duct liner/wrap and plumbing piping and equipment.

MAGNA provides extended capacity ranges and air throw required by large coldstorage and food processing facilities. These industrial-grade units are suited for extreme applications, such as blast freezers and coolers.

Impact traffic doors, double-acting swing doors, strip curtains, PVC vinyl rolls, corrosion resistant doors, fiberglass doors, cold storage doors, sliding fire doors, sliding service doors, pharmaceutical doors, bug screen doors, Industrial curtains, and air doors

MUELLER

Chiller Manufacturer, fabricator of stainless steel tanks, stainless steel processing equipment, stainless steel vessels, integrated processing systems, Brewing Equipment, Pharmaceutical processing equipment, chemical processing equipment, food processing equipment, dairy processing equipment, milk cooling equipment, Pure Water equipment, Field Repair Services, Heat Transfer, and Beverage Processing Equipment.

LRC Coil is a Specialty HVACR design and manufacturer. Product is designed for unique applications such as Wine Rooms, Cigar Rooms, Cheese Storage, Meat Aging, Tech Rooms, Etc. LRC also specialize sin OEM and/or Replacement Coils including, Standard Hot water, Chilled Water, DX, Condenser, Steam Coils, and more.
